DETAILED ACTION

Election/Restrictions

Applicant's election of species 1, claims 1 and 11-14 in the reply filed on 3/29/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 2-5 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim.

Drawings

Replacement drawing sheets were received on 3/29/05. These drawings are objected to because they show new matter. In the specification, second to last paragraph, it is stated that the electromagnet is positioned in seal plate 100. However, in at least Figure 13 of the replacement drawings, the electromagnet is shown separate from the seal plate 100.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Perdue.

The Perdue reference discloses a method of moving a valve comprising providing a valve (34, 35, 36) and a valve seat (20, 21), causing said valve to seal against the seat by forcing the valve toward the seat (allowing gravity to force the valve down toward the seat), reducing the effect of the force (by putting pressure on lever 40), moving the valve to a second position (over wall 16), and restoring the effect of the force (by releasing pressure on lever 40. See page 1, line 101-page 2, line 9.

Allowable Subject Matter

Claims 11-14 are allowed.

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
